

Consultation

The cornerstone of all solutions

Professional and knowledgeable consultation is the cornerstone of any project. Extensive experience within the specialty and special-purpose vehicle manufacturing industry effectively eliminates the learning curve associated with your mobile or outreach project and provides you with the expertise to make informed decisions.

Professional and knowledgeable consultation is available for any or all aspects of your particular project. You choose the amount of involvement based on your unique situation. Example subjects include...

- > Program analysis
- > Concept brainstorming
- > Functionality assessments
- > Project budgeting
- > Vehicle selection
- > Component selection
- > Environmental systems
- > Plumbing systems
- > Exterior graphics/paint
- > Design assessment
- > Bid assessment/analysis
- > Integrated systems
- > Power systems
- > Communications systems
- > Audio/video systems
- > Installed electronics
- > Outsourcing selection
- > Pre-construction meetings
- > In-process assessments
- > Completed project assessments
- > Integration assessments
- > Vendor referrals

Experience, knowledge and integrity... at your fingertips!

We provide expert and independent consultation without any manufacturer/vendor bias. SVS is the only organization of this type in the United States devoted specifically to the mobile and outreach markets. Our ongoing relationships with specialty and special-purpose vehicle manufacturers and vendors allow us to stay up-to-date with the latest models, technology, and industry news. Our expertise is at your fingertips!
